Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to amendment filed 5/12/04 and subsequent to the request for continued examination under 37 CFR 1.114 filed 8/13/04.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/12/04 has been entered.

Response to Amendment

3. Claim 1 has been amended.

Response to Arguments

4. Claim 1 and dependent claims therefrom were rejected under 35 U.S.C. 112 (first paragraph) as failing to comply with the written description requirement. The examiner maintains this rejection with the following detailed explanation supported by MPEP guidelines. Note that the claim(s) are not rejected under

Art Unit: 3624

the enablement requirement, which is separate and distinct from the written description requirement.

Claim Rejections - 35 USC § 112

5. Claims 1-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The applicant is required to show that the applicant had in his or her possession, as of the filing date of the application, the specific subject matter claimed by the applicant using such descriptive means as words, structures, figures, diagrams and formulas that set forth the claimed invention. *Lockwood v. American Airlines, Inc.*, 107 F.3d 1565, 41 USPQ2d 1961 (Fed. Cir. 1997).

In the instant case, claim 1 requires that the process of "completing sales in the primary auction based on sales results in the secondary auction" be carried out using a computer. The specification fails describe that the claimed process step is carried out with a computer consistent with the written description requirement as set forth above. The specification is

Art Unit: 3624

silent about any form of technological implement to carry out the claimed invention. In particular, the specification as originally filed fails to show any descriptive means such as those enumerated above in support of the claimed invention as being implemented on a computer and thus fails to meet the written description requirement under 35 U.S.C. 112, first paragraph.

For further details on the written description requirement please refer to MPEP sections 2163 I.

6. Dependent claims 2-24 are also rejected for the reasons applied to claim 1..

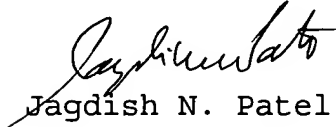

Conclusion
